# She's a 'he,' court rules

By Lella E. Salazar

**MANILA**—A court has ruled that a transgender woman who changed her name and sex on her birth certificate is a man for legal purposes.

The court decision, which was issued in a case filed by the transgender woman, is a landmark ruling in the Philippines. It is the first time a court has ruled that a transgender person is a man for legal purposes.

**STATEMENT OF MAYOR SAMUEL S. CO  
OF PAGADIAN CITY**

In behalf of the officialdom and the good people of Pagadian City, I join the other chief executives of cities all over the country in expressing my undivided support for the **Arroyo administration** and my trust and confidence in the **leadership of President Gloria Macapagal Arroyo**.

It is my belief that the call for the President's resignation at this point in time is misplaced and uncalled for, since there is no definite finding which shows the involvement of the President in the perceived anomalous transaction.

It is unfortunate that in our extremely divided society we have leaders who ought to advocate restraint but instead, in a well-crafted method are deceptively piling block after block of ember designed to build a flame of discontent, then fanning the fire with rhetorics and hope the people would go to the streets to execute an unconstitutional act.

**TO THIS DECEPTION WE SAY NO. TO THE LEADERSHIP OF PRESIDENT ARROYO UP TO 2010 WE SAY YES.**

MILESTONE

By the year 2010, we'll sell more vehicles in the United States than any other Japanese carmaker. We'll have the growing sales of our SUVs, light trucks and sedans, all of which have reached the 100,000-unit sales milestone. We'll be in Europe and Asia, too, with our light trucks and sedans. We'll be in more than 100 countries, serving more than 100 million people.

# China defends controversial joint seismic study in Spratlys

By Benigno Aquino

BEIJING, China (AP) — China's foreign ministry on Monday defended a controversial joint seismic study in the Spratly Islands, saying the study was a normal scientific activity and that the Philippines had no right to object to it.

In a statement, the ministry said the study was a normal scientific activity and that the Philippines had no right to object to it. The study was a joint effort between China and the Philippines.

The image shows a document with Hebrew text. At the top, there is a header with the words "התורה והמצוות" (Torah and Commandments) and "פרשת ויקרא" (Parashat Vayikra). Below this, the text "שנת ה'תשס"ח" (Year 5768) is visible. The main body of the text is in Hebrew, and there are several lines of text that are highlighted in red ink. The document appears to be a formal or religious document, possibly a letter or a certificate.

**R**esults from the analysis of variance are presented in Table 1. The results show that there were significant differences between the groups in all variables measured. The control group had significantly higher values than the other two groups in all variables measured. The patients with mild disease had significantly higher values than the patients with severe disease in all variables measured.

The first part of the paper is devoted to the study of the asymptotic behavior of the solution of the problem (1.1)–(1.3) as  $\epsilon \rightarrow 0$ . In the second part, we study the asymptotic behavior of the solution of the problem (1.1)–(1.3) as  $\epsilon \rightarrow 0$  and  $\delta \rightarrow 0$ . In the third part, we study the asymptotic behavior of the solution of the problem (1.1)–(1.3) as  $\epsilon \rightarrow 0$  and  $\delta \rightarrow 0$ .

1. The first step is to identify the key components of the system. This includes understanding the hardware, software, and data involved.

Figure 1 is a 3D plot showing the relationship between the number of species ( $S$ ) and the number of individuals ( $N$ ) for 1000 random samples. The plot shows a clear positive correlation between  $S$  and  $N$ , with a fitted curve and confidence intervals.

The diagram illustrates the experimental setup. A participant is seated at a table, looking at a video screen. On the screen, there is a starting point (a large circle) and a target (a small circle). The distance between them is labeled 'Distance'. The participant's hand is positioned at the starting point and is labeled 'Hand'.

Figure 1 shows a 2D Cartesian coordinate system with x and y axes. A rectangular region is defined by dashed lines, with its bottom-left corner at the origin (0,0). The region is labeled 'x' and 'y' at the bottom and right edges respectively. The region is divided into four quadrants by the x and y axes. The top-right quadrant is labeled 'x' and 'y' at the top and right edges respectively. The top-left quadrant is labeled 'x' and 'y' at the top and left edges respectively. The bottom-left quadrant is labeled 'x' and 'y' at the bottom and left edges respectively. The bottom-right quadrant is labeled 'x' and 'y' at the bottom and right edges respectively. The region is labeled 'x' and 'y' at the bottom and right edges respectively.

## Spratly Islands 101

Figure 1 shows a 2D Cartesian coordinate system with a horizontal x-axis and a vertical y-axis. A rectangular region is outlined with dashed lines, starting from the origin (0,0) and extending to a point (L, H). The x-axis is labeled 'x' and the y-axis is labeled 'y'. The region is labeled 'x' and 'y'.

# Scandal offers peek inside global high-end prostitution ring

MANILA, Philippines — A scandal involving a high-end prostitution ring in Manila has offered a rare glimpse into the inner workings of the industry, which has long been a shadowy and controversial part of the city's economy.

The scandal, which involved a group of men and women, has shed light on the complex network of relationships and transactions that sustain the industry. It has also raised questions about the role of the government in regulating and controlling the industry.

The scandal is believed to have involved a group of men and women who were involved in a high-end prostitution ring. The ring was allegedly run by a group of men who were involved in a variety of activities, including prostitution, gambling, and drug trafficking.

The scandal has also raised questions about the role of the government in regulating and controlling the industry. It has been argued that the government should take a more active role in regulating the industry, rather than leaving it to the discretion of the private sector.

## Saudi oil firm selling 40% stake in Petron

By Ben S. Reyes

MANILA, July 11 (AP) — Saudi Aramco, the world's largest oil producer, is selling a 40 percent stake in its joint venture with the Philippine government, Petron, to a consortium of investors led by the private equity firm Blackstone.

The deal, which is valued at \$10 billion, would give Blackstone a 40 percent stake in Petron, while Saudi Aramco would retain a 60 percent stake. The deal is expected to be completed by the end of the year.

Petron is a joint venture between Saudi Aramco and the Philippine government, which owns a 40 percent stake. The company is one of the largest oil refiners in the Philippines and is a major supplier of gasoline to the country.

## Smuggled sugar worth P20M seized

By Ben S. Reyes

MANILA, July 11 (AP) — Customs officials have seized a large quantity of smuggled sugar worth about P20 million from a ship in Manila Bay.

The sugar was found on board a ship from the Philippines, which was carrying a large quantity of sugar to the United States. The ship was intercepted by customs officials, who found the sugar hidden in the cargo hold.

The sugar was seized by the Bureau of Customs, which is responsible for enforcing trade laws and collecting duties on imports and exports. The sugar was valued at about P20 million, which is a significant amount of money for the country.

# Congestion feared as Internet traffic rises

Internet traffic is expected to rise sharply in the coming years, but network congestion could become a problem, according to a report from the International Telecommunications Union (ITU) released last week.

The report, titled "Internet Traffic and Network Capacity," says that the number of Internet users worldwide is expected to reach 100 million by the year 2005, up from about 30 million in 1998.

The ITU also predicts that the volume of data traffic will increase by a factor of 100 over the same period, from about 100 million bytes per second in 1998 to 10 billion bytes per second in 2005.

However, the report warns that current network capacity is not sufficient to handle this growth, and that congestion could become a serious problem by 2005.

The ITU calls for a "global effort" to address the problem, including the development of new network technologies and the implementation of traffic management policies.

The report also notes that the growth of Internet traffic is being driven by a number of factors, including the increasing use of e-commerce, streaming media, and video-on-demand services.

## Movies with least profanity earn most

A new study by the Motion Picture Association of America (MPAA) shows that movies with the least profanity are the most profitable. The study, titled "The Business of Movies," found that movies rated PG-13 and below earned an average of \$100 million, while movies rated R earned an average of \$50 million.

Tibet monks stage biggest protests in China region

## China's CO<sub>2</sub> emissions rising faster than thought

China's carbon dioxide (CO<sub>2</sub>) emissions are rising faster than previously thought, according to a new study by the International Energy Agency (IEA). The study, titled "China's CO<sub>2</sub> Emissions: A Review of the Data," found that China's CO<sub>2</sub> emissions in 1999 were 1.5 billion tonnes, up from 1.4 billion tonnes in 1998.

## Tibet monks stage biggest protests in China region

Thousands of Buddhist monks and laypeople gathered in Lhasa, Tibet, to stage a series of protests against the Chinese government's policies in the region. The protests, which began in early July, involved the burning of tires and the setting of fires in public squares. The Chinese government has responded by sending in troops and police to maintain order, but the protests have continued to spread to other parts of Tibet.

## Suicide attack in Afghan capital kills 6 civilians, police say

A suicide attack in the Afghan capital of Kabul killed six civilians and wounded several others, police officials said. The attack, which took place in a busy market area, involved a car packed with explosives that exploded as it drove through the crowd. The police are currently investigating the attack and have not yet identified any suspects.

## Israel undercover forces kill 4 in West Bank

Four Palestinian militants were killed by Israeli undercover forces in the West Bank, according to Israeli officials. The killings took place in a series of operations over the past few days, as Israeli forces sought to dismantle a network of militants. The Israeli Defense Forces (IDF) said that the militants were involved in a series of attacks on Israeli civilians and soldiers. The Palestinian Authority has condemned the killings and called for an investigation into the incident.

# Happy thoughts of Hawaii stir Coakley

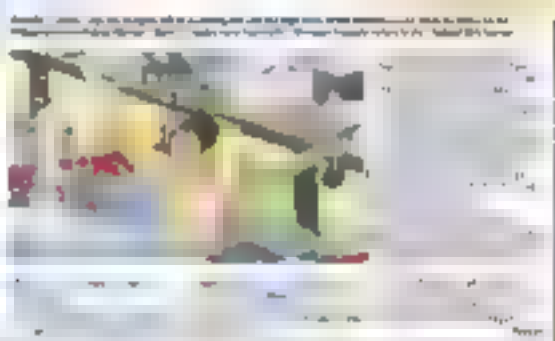

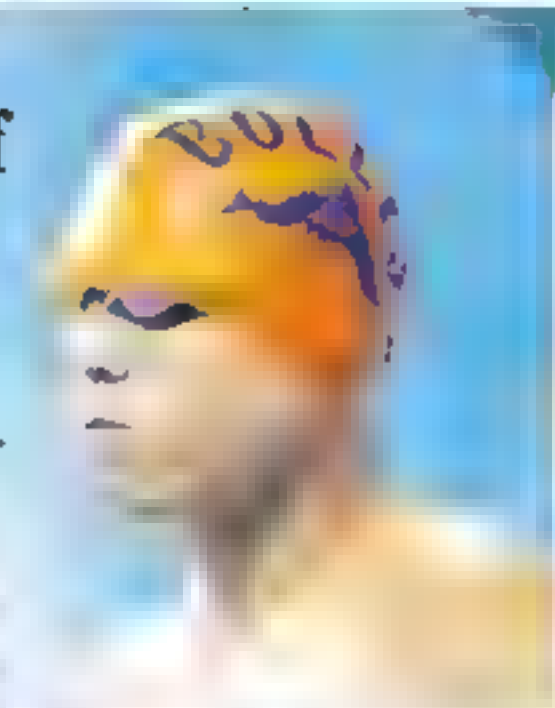

## Fil-Am tanker hopes to harness wave power

By Sam Rife

**RELIANCE**—When he sees the Pacific's raw beauty, Coakley is reminded of his childhood in Hawaii. The 35-year-old Filipino-American tanker captain hopes to harness the power of the ocean to generate electricity, a goal he says is "the only way to save the planet."

Coakley's vision

Coakley's vision of a sustainable future for the Pacific is a vision that is shared by many in the region.

## Tan's loft project targets young entrepreneurs

7/10/99

When you think of commercial real estate, you think of office buildings, hotels, shopping centers, and so on. But what if you think of a place where you can live and work? That's the idea behind the loft project in New York City.

The project is a 10-story building in the heart of Manhattan. It's a mix of residential and commercial space. The residential part is a loft, which is a large, open space that can be used for living or working. The commercial part is a office space, which is also a large, open space. The building is designed to attract young entrepreneurs who want a place to live and work.

### Luxury and Performance in One Car

The car is a luxury car, but it's also a performance car. It's a car that can give you the best of both worlds. It's a car that can give you the luxury of a Rolls-Royce, but it can also give you the performance of a Ferrari.

When you think of the car, you think of the luxury and the performance. But what if you think of a car that can give you the best of both worlds?

### Just how difficult is it to find a good car?

It's not easy to find a good car. There are so many cars out there, and so many different options. It's hard to know which car is the best for you. But if you know what you want, you can find a good car.

# Slim's immense fashion legacy

The new power of fashion is not just about the clothes you wear, but the way you wear them. It's about the confidence and the style that makes you stand out from the crowd.

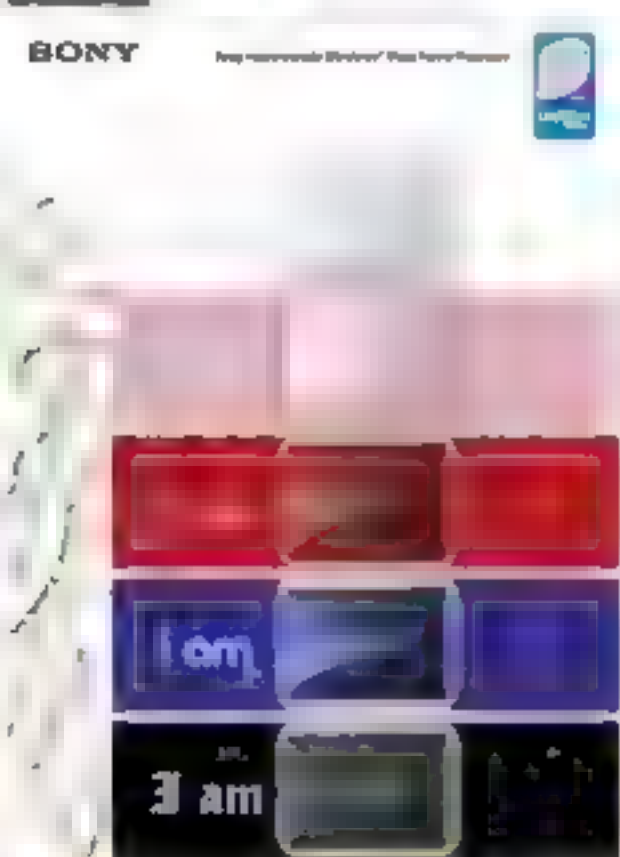

Suburban life is not just about the house you live in, but the life you live. It's about the community and the values that shape your world.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

2. Next, it is important to gather relevant information and data. This can be done through research, consultation with experts, or by analyzing existing data sets.

3. Once the information is gathered, the next step is to analyze it. This involves identifying patterns, trends, and relationships that can help in understanding the problem.

4. After analysis, the next step is to develop a solution or plan. This involves identifying the most effective and efficient way to address the problem.

5. Finally, the solution is implemented and monitored. This involves putting the plan into action and tracking progress to ensure that the problem is solved.

# Fairy-tale wedding of the year

MADE OF wedding couple in white, red, and gold tones at all.

By David Lee Chang & Peter Lee Lee

**B**UT FIRST, IT'S NOT just a wedding. It's a fairy-tale wedding. The bride and groom, both of whom are actors, have a wedding that is as magical as the movies they star in.

The bride, who is a former Miss Universe, is a former Miss Universe. The groom, who is a former Miss Universe, is a former Miss Universe.
